The Death Angel

will call upon us all sooner or later. If he should call at your house and should take one of its members it is but natural you would desire to put that body away in a satisfactory condition. We are pleased to inform you that we keep in stock a FULL LINE of coffins and caskets, burial robes and suits. Our coffins and caskets run in grade from the cheapest to as fine as your demands may require, large and small, white, black and rosewood. When you see our burial robes and suits you will be surprised to see how beautifully we are able to dress the body at a very reasonable cost and without delay. We have a fine glass-sided, well-equipped hearse that we are willing to furnish to anyone FREE in a radius of five miles where the condition of the country is not too rough to be safe to run it. We have also a cooling board of the latest design that we also furnish. Our trimmer is a man who has had a large experience in this business and understands all about it. It will afford us a pleasure to serve you at any time, day or night.

Very truly yours;

Near Death in Big Pond.

It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King's New Discovery brought quick relief and a cure so permanent that I have not been troubled in twelve years." Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, Sore Throats, Hemorrhages, La Grippe, Asthma, Whooping Cough, and all Bronchial affections. 50c and \$1.00. Trial bottle free. Guaranteed by Whitwell Drug Co.

D. T. Layne & Co., one of Whitwell's leading firms has a quarter-page ad. in this issue of the News. This is an old and reliable firm and the people know they stand by just what they say. For the past two seasons they have made a specialty of ladies' millinery, under the supervision of Miss Mamie Layne.

Consumption

is, by no means, the dreadful disease it is thought to be—in the beginning.

It can always be stopped—in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home. Take

Special to the News.

It has been quite a while since the old 3rd has been represented in the columns of the Old Reliable, but I have not failed to read the contents of the News just the same every week.

Since the beginning of my vacation I have noted many business changes throughout the entire country, some for the better and some for the worse, and the good and the bad sentiments of the people as a whole have been given in the News, but the editor's opinion and views on public measures have always been mine. We are perfectly willing for him to lead the delegation of News correspondents on almost any public measure that comes in contact with the general mass of people that has been up before the people and the state Legislature. I hope and trust that good will result to the people and that there will be many greatly benefited, and that the rising generation may be improved by the enactment of good laws. Better laws mean good state government and good citizenship. What is good for my neighbor will be good for me, so just let her slide, but don't forget to watch as well as pray and don't fail to keep one eye open while you sleep at night. If you will keep this practice up there will be no Jonah capture you while asleep.

The legislature has about done up the county commission business of registration, and put the appointing power back in the hands and under the jurisdiction of the county court, and has also passed the bill to redistrict the county of old Marion. If this bill is not vetoed by Patterson it will bring back the old sixteen districts in this county and do away with this registration law in nearly every district in the county that has burdened the people so long. I hope we can vote just as intelligently without the registration as we could with it, as we did years ago, and to know that we can vote without possessing educational qualifications before we can exercise our elective franchise and exercise and perform the duties of our forefathers.

We need just as good men in the county court as guardians of the people as we do in the state legislature, because they act on the people's rights and handle the taxpayer's money, and if they act wisely in voting their appropriations all will be well. If not, then they are a party to helping rob the taxpayers and county treasury. We have had passed some measures and appropriations by our county court that have promised to be bad measures, and detrimental to the interests of the taxpayers of the county so people say, and they are now the judges of the past records of the county's representatives. The cause thereof is unknown to us, whether by corruption in the county court or from other causes, we are unable to explain.

We have had three justice's resignations tendered to the county court from the upper end of the county, to wit: Dan Pitman, S. L. Hayron and J. H. Barker. All have thrown up the sponge and stepped down and out, so we are left unofficially represented by an justice to issue legal process of the law from below Victoria at Esquire Merritt's up to the Sequachee County line, a distance of nine or ten miles, so I have now stepped in the ring as a candidate to fill the vacancy of somebody. God only knows who, but it's a puzzle just now to get the required information as to how this special election will be called. Will it be by the county commissioners of registration or by the county court? Why has the delay been so long? If I understand the law if the election was called by the commissioner before the action of the legislature it would be constitutional, but if called by them after the action of the legislature and the law was approved, then it would be illegal and unconstitutional and would all have to be done over again. Let that be as it may I am in the ring for justice of the Peace, believing at the same time that there may be better men in the field than I, but none any more competent and fitted for the place than myself and none that are in the field can do as much for the people in the upper end of Marion County than I can do, and what ever I promise to do for my people I will be found at the bar of justice, battling for what I think is to the interest of our people and in the bounds and territory in which I will endeavor to represent.

There has been quite a lot of sickness here for the last fifteen days and Mrs. Janaway and Shirley have been very busy attending to them, but from all reports the patients are out of danger. No rows, no fights and no marriages to report this week. Plenty of rain, an abundance of water and mud, bad roads, and but little work going on. Everybody is getting short of provisions, have about consumed all they put up and now corn is scarce, and has reached 90c per bushel and some are out now and the neighbors haven't got it to let them have, and the crop to make and plow yet. I am at a loss to figure out just how they will get through and make their crop and keep out of debt. They will have to work hard—work like Roosevelt said to a darkey who walked into his office one day and made this remark: "Mr. President, why do you get such a big salary as you do for only sitting in this office and don't go hard manual labor?" "Well," he said to the darkey, "they pay me for head work and that's what I am doing now." The old darkey said, "Pretty good, sah." The President said to the darkey, "I will give you a dollar to kill a small beef for me today." "All right, boss," said the darkey, so he went away at once and killed the beef and pretty soon he reported to the president, "All right, boss, I sure killed him." "Well, have you got him dressed?" "No, boss, I had no contract to dress it, only to kill it, and that I sure did." "I thought the dollar contract covered the whole job." "No, Mr. President, it takes another dollar now to dress it. I am doing headwork now." So, readers, if you keep up with these hard times and all that is going on you must work head work.

Good will to the editor and all the brother and sister correspondents, and amity to none. Representative.

Deafness Cannot be Cured by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.
